

# LOCKDOWN

Lockdown Live is a programme of live learning sessions, devised in response to the announcement by the Scottish Government on 4th January that school buildings will be closed to most pupils until at least 1st Feb

**e-Sgoil** is focussed primarily on the delivery of live teaching to pupils across Scotland. As part of the **National e-Learning Offer**, the following online educational provision is available during the period of remote learning from 11th January, to support Scotland's schools in providing the best teaching/learning possible for their pupils.

We are working with a wide range of partners to bring this varied and high-quality programme to fruition and are grateful to each of them for their expertise and commitment to Scotland's young people.

# LOCKDOWN LNV e-sgoil

## Core e-Sgoil Business\*:

Throughout the COVID crisis and beyond, e-Sgoil will continue to help schools tackle inequity of curricular opportunity and acute teacher shortages by delivering a range of digital services and projects, including specialist remote supply cover, curriculum enrichment opportunities, Gaelic and other language classes and educational provision for Interrupted Learners (those unable to attend school for a variety of non-COVID related reasons).

We remain available to discuss any requirements or ideas that schools, learners or potential partners may have.
